

Ivan Fumagalli

Curriculum Vitae

Personal data and contacts

Born in: Ponte San Pietro (BG), Italy, on 21/11/1989
Home address: via Cimarosa 16, 24046 Osio Sotto (BG), Italy
Office: Moxoff s.p.a – via G. Durando 38/A, 20158 Milano, Italy
Phone: +39 02 2399 2964 (office), +39 3471287649 (mobile)
E-mail: ivan.fumagalli@polimi.it, ivan.fumagalli@moxoff.com
Web page: www1.mate.polimi.it/~ifumagalli

Research interests

I am interested in the **numerical analysis** and **optimal control** of **industrial, bio and real-life applications**. In particular, my main focus is on problems with **moving geometries**, such as **free boundary** problems (in fluid dynamics, but not exclusively), and I have been investigating the numerical treatment of **moving contact lines**. I am intrigued by all the levels of the mathematical description of a phenomenon, ranging from modeling and theoretical analysis, to numerical approximation, and to scientific computing. Concerning optimal control, I am particularly attracted to **shape optimization** and other control problems involving geometry displacements. I am also interested in **model order reduction**: for many applications, computational efficiency is a must.

Education

2014 – Jul 2017 Ph.D. in Mathematical Models and Methods in Engineering
at MOX – Department of Mathematics, Politecnico di Milano, Italy
Thesis: Numerical approximation and optimal control of free surface problems with moving contact line
Supervisors: Profs. Nicola Parolini, Marco Verani

2011 – Dec 2013 Master of Science in Mathematical Engineering
orientation “Computational Sciences for Engineering”, at Politecnico di Milano, Italy
Thesis: Shape Optimization for Stokes flows: a reference-domain approach
Supervisors: Profs. Nicola Parolini, Marco Verani
Grade: 110/110 cum laude

2008 – 2011 Bachelor Degree in Mathematical Engineering at Politecnico di Milano, Italy
Thesis: Test a priori di modelli LES per la turbolenza omogenea e isotropa
(A priori tests on LES models for homogeneous and isotropic turbulence)
Supervisor: Prof. Lorenzo Valdettraro
Grade: 110/110 cum laude

Visiting experience

Feb – Apr 2016 Visiting student at the Department of Mathematics (group of Prof. R.H. Nochetto),
University of Maryland, College Park, USA

Professional experience

May 2018 – present Postdoctoral Researcher at MOX – Politecnico di Milano, in the [iHeart](#) project
Research topic: Mathematical and numerical modeling of cardiac valves

Sep 2017 – Mar 2018 Analyst and Developer at Moxoff s.p.a. (www.moxoff.com)
(company focused on advanced applied math solutions and technology transfer)

Sep 2016 – Jul 2017 Project fellow at Moxoff s.p.a.

A.Y. 2014/15 – Teaching assistant and computer laboratory tutor at Politecnico di Milano
2016/17 courses: Mathematical methods for engineering (in English) – M.Sc. Eng. Physics
Ordinary differential equations – B.Sc. Environmental Eng.
Analytical and numerical methods for engineering – B.Sc. Energy Eng.

Language skills

<u>Italian</u>	<u>English</u>	<u>French</u>
native language	fluent	basics
	2009 TOEFL IBT (100/120)	C2 level
	2008 FCE (grade B)	B2 level

Computer skills

Operative systems	Windows, Debian-based Linux, basics of other Unix OS's
Programming languages	C, C++, Matlab, FreeFem – very good Python, OpenMP, MPI – good Fortran, CUDA, R, AMPL – basic
Software libraries	FEniCS-dolfin (Python and C++ – finite element methods) – very good rbMIT (Matlab – finite element, reduced basis methods) – good GALib (C++ – genetic algorithms) – basic
CFD software	Phoenics – good
Typographical languages	LaTeX – very good
Certification	European Computer Driving License (ECDL)

Publications

- I. Fumagalli, N. Parolini, M. Verani, *Optimal control in ink-jet printing via instantaneous control*, under review (preprint: MOX report 64/2017).
- I. Fumagalli, *A free-boundary problem with moving contact points*, submitted (preprint: MOX report 33/2017).
- I. Fumagalli, N. Parolini, M. Verani, *On a free-surface problem with moving contact line: from variational principles to stable numerical approximations*, Journal of Computational Physics, 355C, 253–284, 2018.
- I. Fumagalli, A. Manzoni, N. Parolini, M. Verani, *Reduced basis approximation and a posteriori error estimates for parametrized elliptic eigenvalue problems*, ESAIM: Mathematical Modelling and Numerical Analysis, 50 (6), 1857–1885, 2016.
- I. Fumagalli, N. Parolini, and M. Verani, *Shape Optimization for Stokes flows: a finite element convergence analysis*, ESAIM: Mathematical Modelling and Numerical Analysis, 49 (4), 921–951, 2015.

Invited seminars

09/07/2017	CATS chair, Rheinisch-Westfälische Technische Hochschule, Aachen, Germany Talk: <i>Numerical approximation and optimal control of free surface problems with moving contact line</i>
29/03/2016	Department of Mathematics, University of Maryland, College Park, MD, USA Talk: <i>Reduced basis approximation and a posteriori error estimates for parametrized elliptic eigenvalue problems</i>
23/06/2016	MOX – Department of Mathematics, Politecnico di Milano, Milan, Italy Talk: <i>Simulation and control of moving-contact-line problems</i>

Participation to conferences (with presentation)

12/04/2017	PhD Day, Università degli Studi di Milano, Milan, Italy Talk: <i>Stability analysis and optimal control of a free-surface problem with moving contact line</i>
05-07/04/2017	IACM 19 th International Conference on Finite Elements in Flow Problems (FEF 2017), Università la Sapienza, Rome, Italy Talk: <i>Stability analysis of a free-surface problem with moving contact line</i>

14-17/06/2016	MAFELAP – The Mathematics of Finite Elements and Applications, Brunel University, London, United Kingdom Talk: <i>Reduced basis approximation and a posteriori error estimates for parametrized elliptic eigenvalue problems</i>
15-16/04/2016	Finite Element Circus, University of Maryland, College Park, MD, USA Talk: <i>An ALE approach to free-surface problems with moving contact points</i>
14-18/09/2015	ENUMATH – European conference on Numerical Mathematics and advanced applications, Middle East Technical University, Ankara, Turkey Talk: <i>Reduced basis approximation and a posteriori error estimates for parametrized elliptic eigenvalue problems</i> , in the mini-symposium: A posteriori error estimates for linear and nonlinear eigenvalue problems
13-14/04/2015	Lions-Magenes Days, Università degli Studi di Pavia, Italy Poster: <i>Shape optimization for Stokes flows: a finite element convergence analysis</i>

Participation to other conferences, workshops, schools

26-27/05/2017	European Finite Element Fair (EFEF 2017) Università degli Studi di Milano, Milan, Italy
12/05/2017	MediolaNum Università degli Studi di Milano, Milan, Italy
03-07/10/2016	Advanced Numerical Methods: recent developments, analysis, and applications Institut Henri Poincaré, Paris, France
30/09/2015	Reduced Order Modeling Techniques & Applications. École Polytechnique Fédérale de Lausanne, Switzerland
29/06-03/07/2015	Summer school: Innovative concepts for complexity reduction in numerical PDEs: nonlinear approximation, sparsity, adaptivity, model reduction. Dobbiaco (BZ), Italy
23-29/11/2014	Oberwolfach seminar: Projection based model reduction: Reduced Basis Methods, Proper Orthogonal Decomposition, and Low Rank Tensor Approximations. Mathematisches Forschungsinstitut Oberwolfach, Germany
17-25/11/2012	ATHENS course: Isogeometric simulation & beyond. Technische Universität München, Germany

Other activity

2017	Reviewer for <i>Computers & Fluids</i> .
2016	Member of the staff for the biennial SIMAI congress (13-16 September, Milan).

Rewards

2017	Attribution of contribution for scientific events by GNCS-INdAM.
2008	Admission to the Albo Nazionale delle Eccellenze (National Excellence Register) 07/08, for the achievement of High School Degree cum laude.

Personal interests

2015 – today	Member of La Gilda delle Arti, acting company.
2010 – 2012	Member of ShArt - Show and Art, acting and music company.
